Soul music from the Northwoods 16 MP3 Songs FOLK: Free-folk, FOLK: Fingerstyle Details: Michael Waite grew up on the south shore of Lake Superior. The son of a gourmet cook and an English professor, he found solace in the different styles of music in his house, as well as outside in the woods and by the lakeshore. From cowboy music to Irish ballads to soul to jazz to bluegrass, his love for all styles emanates from his first recording, Let it Go. Joining him on the record are John Churchville playing drums of many kinds and Jared Nelson Smith on several instruments, the most prominent of which is a singing Western-style guitar. The three met in Chicago for a week in March of 2007 to play in the studio of another dear friend Ryan Staples. The sessions there were at once urgent and timeless, puzzling and deeply satisfying. People who have this disc commonly leave it in their CD player for days on end. We hope you will love it too. People who are interested in Tom Waits James Taylor Paul Simon should consider this download.
