THE EXCLUSIVE INTERVIEW WITH SAMADHI We met with the cool Russian lads and had a few words and vodkas..... 1. What made you decide to form a band , tell us a bit about the SAMADHI history and about life where you come from ? (Vova) So, the band gave me the opportunity to say some words about us. We are from Russia and, at the moment we live in Moscow. Actually, we came from the other end of the country and if you take a look on the map you can find that it's pretty far from the capital. The only reason of leaving for Moscow is our enormous wish to progress because we are the band that was formed to do something important on the music scene. It's not the only wish to be famous anyway, but if the Beatles or any other great band wasn't famous we would never heard the magic. 2. Who or what are your influences? I wouldn't say about influence as it is, but anyway if you like some artist you try to understand how does him make music, including the technical side of the process of making music(recording, mixing etc.). 3. What modern artists do you rate? Regarding the real big artists we can say about Radiohead, Bjork, (they are the quality of modern music), Portishead, Nirvana (must be the best band of nineties), Smashing Pumpkins, The Verve (they don't play at the moment, but it doesn't matter), Foo Fighters, Coldplay. 4. If you could choose to record a song with any

other artist/band alive or dead who would it be and why? John Lennon without a doubt, but it's impossible. It would be very interesting to record a song with female singer like Dido for example, she has an unusual and beautiful vocal. 5. What inspires you to write your music ? Love for music first of all. It is very important and interesting thing to be involved in the process of making music and you can make the original material that has been never heard before, and every song for you it's like a birth of the child, when you care and worry and love. You just escape from the ordinary world and try to hide into your own one. And you can live there... 6. Name your all time fave track by another artist ? Often I sing by myself the Beatles' song "A Day In The Life". Actually, I have a lot of songs I really like "Bohemian Rhapsody" for example, or "Disarm" by Smashing Pumpkins or the Verve's "Bitter Sweet Symphony". Yes, it's impossible to choose the only one. 7. What instruments do you use ? Guitars, drums, and VST instruments. 8. What are your ambitions for your music. Where do you see yourself in 5 years ? Sure, we have the ambitions because we are the artists and we have to be one of the best! We would be happy to make people glad and give them a bit of positive emotions and harmony with themselves and with the world. Think it could help us to be in such a harmony too. In 5 years? Think we would be happy to mean something in the music world as the serious and interesting band. 9. How would you describe your music and what genre do you think it fits into ? First of all it is honest music, we worked hard making this E.P. It's pretty melancholy music and sometimes we call it "sadrock". Of course, we hope that it would be pleasant for many music listeners and, anyway, it is rock music and it fits...well I don't know, maybe into various rock genres. 10. Where was your new E.P recorded/produced ? This E.P. was recorded in 2004 in Moscow. 11. Who are SAMADHI and what does each member play ? Samadhi are: Vova (vocals and guitar), Troll (lead guitar), Vadik (bass), Vita (drums)
