powerpop guitar rock from Hong Kong's top all girls band! 12 MP3 Songs POP: Power Pop, ROCK: Punk
Details: Album Review: These four women have captured a nice simple rock formula and thrown in some experimentalism, a dash of intelligence, a smidge of social consciousness, a dollop of really loud guitars, and a healthy dose of confidence to make music that is both fresh and fertile. This is a good disc, one that harbors not only a lot of great ideas and a sense of adventure and inventiveness, but gives the world a look at the potential these women still possess. I predict that the Sisters of Sharon will continue to rock hard and gain not only more notoriety in Hong Kong, but they will continue to spread their music to the rest of the world as well. ===== Sharon notes: I wanted to design this album but they didn't like the 'Hello Kitty' theme that I had..... This time they let me come to the recording studio (I had to promise NOT to sing into the microphone...) Everyone felt relaxed working with Raymond again. The name for the CD came from a shortlist of 5 titles (I wanted to call it Sharon on Top - but my Sisters weren't having it!) and then eventually everyone got drunk and pulled the name out of a gigantic frog who IS a Prince.... or maybe that was another night?!?!
