Original music in a variety of easy listening music styles (Pop/Praise, Rock/Acoustic, Gospel/Blues) and lyrics inspired by time spent with God and songs from the heart of a worship leader, sung mainly by father/son duo. 11 MP3 Songs POP: 90's Pop, GOSPEL: Contemporary Gospel Details: "The Melodious" who would choose a name like that? I have to admit now that it seems a bit braggy, but it did not cross my mind when I chose it. Have you ever heard the old hymn "Sweet By and By"...the melodious songs of the blest...? I love the word melodious; it makes me think of an overload of fruit on a vine. Can anyone be melodious? I certainly see that God's intention for all of us is to fit perfectly into His orchestra. If you liked Keith Green who influenced me back in my teen years, there's a good chance you will like my style. I grew up learning hymns, but have grown to appreciate many styles of music from classical to alternative. However, I find that I express myself best with a middle of the road pop/rock and sometimes jazzy style with an uncomplicated piano part leaving the creative genius to the other musicians. It amazes me how my dream to create a music CD suddenly doesn't seem like such a big deal any more. The deal is now to learn creative ways to sell it so that I can do it again. If I keep writing and recording, maybe someday I'll say something that strike a melodious chord with people and I can do what I dream of. You know like standing in front of a lot of screaming fans, singing songs from my heart and reaching as many as I can with simple truth. -Mike
