Ambient textures, meditative and introspective music used for meditation, yoga or just tripping out. 6 MP3 Songs NEW AGE: Healing, NEW AGE: Yoga Details: MAYA is a project that started as one long ambient drum track, at which point the bass parts were added, and before too long everything just came together to make the journey complete. This record stays fairly mellow through out as it has more of a textural soundscape vibe. It has been recommended by many for Yoga classes, modern dance or interpretive dance classes. Everything on the record is live and was played in and processed, mixed, and engineered by Robbin J Harris (The Viking) with additional help from Marcia Seebaran providing vocals on a few tracks. The record has a very organic feel to it and follows a steady path from start to finish. One could use it for relaxing, meditation or one of the aforementioned uses. A departure from the more hard hitting groove based dub tracks produced by The Viking in the past, but none the less, the dub does live on in this album. Dub the Planet! Jah Bless!
