

Transitional Justice

How do societies come to terms with the aftermath of genocide and mass violence, and how might the international community contribute to this process? Transitional Justice, the first edited collection in anthropology focused directly on this issue, argues that, however well-intentioned, transitional justice needs to grapple more deeply with the complexities of global and transnational involvements and the local on-the-ground realities with which they intersect. Contributors consider what justice means and how it is negotiated in different localities where transitional justice efforts are underway after genocide and mass atrocity and address a variety of mechanisms.
