

Direct Methods In The Theory Of Elliptic Equations

[DOWNLOAD HERE](#)

From the contents: 1.Introduction to the problem.- 2.Sobolev spaces.- 3.Existence, Uniqueness of basic problems.- 4.Regularity of solution.- 5.Applications of Rellich's inequalities and generalization to boundary value problems.- 6.Sobolev spaces with weights and applications to the boundary value problems.- 7.Regularity of solutions in case of irregular domains and elliptic problems with variable coefficients.

EAN/ISBN : 9783642104558 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Necas, Jindrich
