

# Giovenale, Satira Iv

[DOWNLOAD HERE](#)

This work re-examines Juvenal's big fish satire through detailed scholarly commentary. It includes the original text along with a new Italian translation. Santorelli demonstrates that Juvenal's satire not only looks back at the earlier period of Domitian's rule but also is intended as an indirect critique of the political system of the Optimus Princeps Trajan. Biagio Santorelli, Scuola Normale Superiore, Pisa, Italien.
