

# Interactions Between The Craniomandibular System And Cervical Spine

[DOWNLOAD HERE](#)

1; Interactions between the Craniomandibular System and Cervical Spine The influence of an unilateral change of occlusion on the upper cervical range of motion; 1 1.1; I Acknowledgement; 3 1.2; Table of Contents; 4 1.3; III Abstract; 7 1.4; 1. Introduction; 8 1.5; 2. Theoretical background; 10 1.5.1; 2.1. Embryology; 10 1.5.2; 2.1.1. Biological development and evolution of the jaw, facial and cervical regions; 11 1.5.2.1; 2.1.1.1. The gill system; 11 1.5.2.2; 2.1.1.2. Differentiation of tissues in human gill arches; 11 1.5.2.3; 2.1.1.3. Gill arch innervation in humans; 14 1.5.3; 2.2. Anatomy of the human temporomandibular joint; 17 1.5.3.1; 2.2.1. Neuroanatomical relationships between the CMS and the upper portion of the CS; 18 1.5.3.1.1; 2.2.1.1. The nervus trigeminus pathway; 18 1.5.3.1.2; 2.2.1.2. The area innervated by the nervus trigeminus; 19 1.5.3.1.3; 2.2.1.3. Nervus trigeminus convergences with other areas; 20 1.5.3.1.4; 2.2.1.4. Plexus cervicalis and its relationship to the upper CS; 21 1.5.3.2; 2.2.2. Musculature in the CMS region; 22 1.5.3.2.1; 2.2.2.1. The CMS musculature; 23 1.5.3.2.2; 2.2.2.2. Musculature in the CS region; 25 1.5.3.2.3; 2.2.2.3. Functional interactions between the masticatory musculature and the anterior and posterior neck musculature.; 29 1.5.3.3; 2.2.3. Functional connections between the CMS, CS and shoulder girdle regions; 30 1.5.3.3.1; 2.2.3.1. Head posture; 31 1.5.3.3.2; 2.2.3.2. Mandibular posture; 32 1.6; 3. Empirical section; 33 1.6.1; 3.1. Investigations on neuronal interactions between areas innervated by the trigeminus and the innervation of the upper cervical areas.; 33 1.6.1.1; 3.1.1. Sensory neuronal interactions between the CMS and CS regions; 34 1.6.1.2; 3.1.2. Neuronal motor interactions between the CMS and CS regions; 35 1.6.2; 3.2. Craniomandibular dysfunction; 37 1.6.2.1; 3.2.1. Historical background for CMD; 37 1.6.2.2; 3.2.2. Definition and diagnostics for CMD; 38 1.6.2.3; 3.2.3. Overview of investigations in cases of functional impairment of the CMS.; 40 1.6.3; 3.3. Pathophysiology of the CMS and the upper CS region in humans; 42 1.6.4; 3.4. Biomechanical connections between the CCS and CMS; 43 1.7; 4. Aims of the current study and hypotheses; 46 1.8; 5. Material and methods; 47 1.8.1; 5.1. Definition of the exclusion criteria; 47 1.8.2; 5.2. Sample; 48 1.8.3; 5.3. Questionnaire and clinical investigation of the CS region; 50 1.8.3.1; 5.3.1. Questionnaire A: Sociodemographic data, pain assessment and measurement of the

maximum opening of the mouth;50 1.8.3.2;5.3.2. Questionnaire B: Determination of the exclusion criteria (B1) and questioning of the subjects on subjectively perceived tension (B2);50 1.8.4;5.4. Experimental design and measurements;51 1.8.4.1;5.4.1. Experimental design;51 1.8.4.2;5.4.2. Chronological sequence of the entire experimental design depicted using a flow chart;53 1.8.4.3;5.4.3. Description of an individual measurement;54 1.8.4.3.1;5.4.3.1. Introduction, fitting of the metal foil, warming up;54 1.8.4.3.2;5.4.3.2. Conduct of analysis of mobility in the CS;54 1.9;6. Results and interpretation;60 1.9.1;6.1. Demographic data;60 1.9.2;6.2. Intergroup comparison of demographic data;60 1.9.3;6.3. General evaluation of the raw data on baseline measurements;61 1.9.4;6.4. Evaluation of the baseline measurements for each group;61 1.9.5;6.5. Statistical analysis of measurements made under experimental conditions;63 1.9.6;6.6. Results from the questionnaires on subjective perception of tension;67 1.9.7;6.7. Evaluation of the hypotheses;68 1.10;7. Discussion;69 1.10.1;7.1. Discussion of the findings with reference to the theoretical and empirical research background and their clinical relevance;69 1.10.2;7.2. Discussion of errors;71 1.10.3;7.3. Comparisons with other studies;73 1.11;8. Conclusions;77 1.11.1;8.1. Study design;77 1.11.2;8.2. Results of the current investigation;77 1.12;9. References;79 1.13;Appendix;87 EAN/ISBN : 9783836612029 Publisher(s): Diplomica Format: ePub/PDF Author(s): Klemm, Stephan
