Well, they're back with their own group album (Instant Replay). Supa-Villain, Al-Myte, and G-Chill featuring Big Phil are here to take the industry by storm. The album produced by up-and-coming producer Supa-Villain with production work already under his belt on the CHITA-TRILLOGY Compilation has proven to be very innovative in the way that he approaches this game. He continues to show that his skills both in production and MCing are both soon to be forces to be reckoned with. He alone produced every song on the album except for "Rose Petals" produced by Brandon. He takes his skills from the boards to the microphone spitting out charismatic phrases. Al-Myte (pronounced al mighty) comes through the speaker with a vicious and style commanding your attention throughout every verse. G-Chill will rattle your mental logic with his verbal metaphors. Big Phil who is considered to be one of the best freestyle rap artists south of Jackson, MS can ignite a fire to any beat with his masterful flow.
