C7's debut album is his conservative return to the love of the village mentality and the revelation of the beauty in true love, life and basic common sense all laced with hip hop beats and R&B cuts. 16 MP3 Songs SPOKEN WORD: Poetry Details: What do a Spoken Word Artist a naval officer and a devoted father of two have in common? Absolutely nothing... well, until now. C7 hails from Boston, Mass and has been known for his gritty, realistic and straight to the point style of poetry. Hostile Intentions is his debut spoken word project. The cunning hidden Parental Advisory marked: "Educated Lyrics" in the corner and the photographic genius of Sugar Randle's cover work, (find her and her work at whoissugar.com), often cause a lot of misinterpretation of this author's hidden messages. He is joined on this album by two local VA poets that are remarkable in their own right. Trish Doolin and Clayton J. Singleton, (to see his work look for him at absolutearts.com/portfolios/c/claytonjs). This album was designed to shed light on situations that are normally never given enough attention. The taboo subjects that so many suffer with alone. Whether blazed over a hip hop beat, (feel it on track 3, Introducing) or laced with an R&B track, (check out track 13, PASSION), all of his work is based on the concept of returning to the art of common sense. What affect will his work have on you? You will have to listen and see for yourself. Stay tuned for the next album.
