Unlike most Mass Choirs, we are completely comprised of non-professional singers. Actual members of our church who just so happen to have wonderful voices and the desire and passion to sing for Christ and Praise Worship His name. We have recorded 3 albums to date and are having a wonderful experience as a result of this ministry. Doing East coast and West coast tours and having our music played on a number of radio stations througout the country and beyond. The best part about it is this is just who we are. If you come to our church on any given Sunday morning this what you get. This particular Christmas is special because it is our first Christmas album. More importantly it is a different kind of Christmas cd. Yes there are some classic songs on here but there are some brand new original recordings of new Christmas songs that are sure to touch your soul and take you back to the true meaning of Christmas. I hope you enjoy this tribute to the birth of our Savior. Don't forget you can also check out our other 2 cds as well... FBC Mass Choir "LIVE" "Heaven in the Room"
