## **Mp3 Gail Rodgers - Winterhymn**

## DOWNLOAD HERE

Jazzy, new age, classical and inspirational instrumentals and vocals. 11 MP3 Songs JAZZ: Smooth Jazz, NEW AGE: New Age Details: Winterhymn is a musical journey through the joy and beauty of wintertime. It is about finding light in the darkness, a path of peace through the winter storm, and about the celebration of new life in the birth of our savior. I am a singer-songwriter-musician living of the seacoast of New Hampshire. I have worked on many other recording projects over the years, including gospel, classical, folk, and worked for years as a session singer in New York. "Winterhymn" is my first solo project. I was very fortunate to have the help of several talented musicians who brought this dream to life. I am especially grateful to Brad Hatfield of Westwood, Massachusetts and the Boston Pops, for his amazing talent and ability to hear the music that had previously only been heard in my heart. Winterhymn is 11 songs; all but three written by me. There are instrumental pieces, carols, songs; a bit of everything. I hope with all to inspire and bless this winter season.
