My songs all come from personal experiences, and I talk about, Love, Intimacy, and different relationships that people go through in life. I speak the words with background singers and musical instruments to keep my songs updated with a cool beat sound. 7 MP3 Songs URBAN/R&B: Rhythm Blues, SPOKEN WORD: With Music Details: Hello, My name is Jaiye Bynoe from Boston Ma. My latest cd is titled "The best hits of Jaiye Bynoe". Its a compilation cd that has all of my old songs and the newer updated songs. Its better for everyone to just purchase this cd from now on. My songs "WordUp", and "It's Alright" talks about Homlessness, No Jobs, and people lying to get ahead, but remembering God will make a way for you. The songs "One On One", and "I've Been Thinking" are about the relationships between young adults and how much they care and respect each other. My new updated songs "Break It On Down", and "Freaky Freak" are performed in R&B style mainly for older adults. They talk about love and the different relationships that people go through in a way that they can dance too also. The songs "Dooya", and "Xstacy" are about intimacy and romance in a nice quiet mellow way about one couple. I hope that you enjoy listening to my music and the joy that I have in writing it because it truly does come, "FROM THE HEART". God Bless Jaiye Bynoe
