I stimulate your mind send a tingle through your spine, uplift mankind shine throughout time. Bass heavy hip hop with old school flavors scratchin', club tracks, drive by tracks, and r&b flavored tracks. 15 MP3 Songs HIP HOP/RAP: Hip Hop, URBAN/R&B: R&B Rap mix Details: Retaliation Bio: The Big Payback Retaliation just is. For me it can't be planned but is only a part of being. To thrive in itself is retaliation. To thrive or retaliate against those that hate me I "Throw The Funk At 'Em". In this track the dj cuts old school style to demand respect for the dj. Then a funky keyboard simply dominated the melody hook. The rapper is sittin in the corner of the cut "cockpittin" the rhymes like he just don't care. This will make your car stereo the envy of your rivals. "My Approach" is an energetic vocal over simply facinating music reminescent of the mophat era. The chords tingle and chime while the mc rhymes. This is a true treasure for your collection and my favorite on this cd. The "Master (Remix)" was a cool acapella mixed over the "Better Watch Your Back" beat. This track will calm your nerves and make you feel content as the fullness of the bass fills the environment. "Afro American" helps remind you that there are Afro American variations to American culture and experiences in the world. The bass just strait dumps, testing your woofers so you can show off as you drive down the streets. "Summa Dat (b)" is the semi-mastered version updated from the "Man of Steel" album. "Club 2 This (the Hyph)" this is the bandwagon anthem to the hypy movement. I use hyph like we used funk back in the days. This one will help make the club go stupid. Straight yellow bus on this one. "Crackin Hour (b)" is the semi-mastered version updated from the "Man of Steel " album "Game Unit" is like your team or crew. This track inspires you to get your true game unit together. "My BMW" is a chill song with much bounce and hits just right. Motivates you to take pride in what you got and just be you. BMW drives can floss to this. "Fi Yi Yi Yi Yine (What Can You Do?) Although the story isn't true...one of my dj friends had a daughter that turned 19 this year and she is Fi yi

yi yi yine. She's the inspiration for this song ha ha. It's my second favorite on the album. A cool lil story about a dude who gets shot for being with his buddy's daughter. Remember Carlos it's not true...ha ha!

"Back Stabbers" on July 12 2006 I formally cut loose all the idiots, users, players, backstabbers, haters out of my inner circle. Seems I lost most of my near by friends. But if we're only friends when I can do for them...then we ain't friends at all. Like Ludacris said about Chingy. I don't wish them no harm but I ain't got nothin' to do wit' 'em. Hopefully this song will inspire you to cut that dead weight out of your life. Stand up baby and let me see where you commin' from.... "Hustle Ma Best" The T-Fro Connection is at it again. Tebo Johnny Afro come together for an old school east palo alto theme song. Beat by Tebo. "I Want That" T-Fro Connection gets together on another track. Another beat by Tebo. Catchy Club song were everybody in the part can look at what they want and sing along..."I Want That!" "Soul Jurror" This Bass Heavy Version is filled with good charma. Johnny Afro rips the verse. This is a classic soul/hip hop meets funk mix. Use this when you want a song to drive to and keeps the kids happy! "Mac Beat" This track is one I chose from Mac of Mac AK. I was looking to get the 50 Cent "In Da Club" feel. but I think I'm a little shy on the mix and mastering. Nevertheless not being one to waste a meaningful track I represent it here as the final on this "Retaliation" cd. In the insert of this cd I send shouts to "Rip Anissa". She had nerve pain from a horse riding competition injury. She endured years of medication and pain until the story ended for her at a young age approx 30 I'd guess. I learned a lot from her about our government and these intelligence agency's. Just remember what you don't know will kill you!
