Bright Future. 13 MP3 Songs HIP HOP/RAP: Hardcore Rap, HIP HOP/RAP: Southern Style Details: NIZE ENTERTAINMENT introduces "MR. NIZE" and his debut single "10X For My Ghetto". Born 1976, a Dallas, TX native NIZE (born Marlon Childress), displays in a raw fashion: soul, sound, seriousness. Talents are unlimited, as not only does he perform vocals but establishes his presence as a music composer and producer. He has created a new genre of music "Hardcore R B". Matching mind gripping music with complimentary voices. If there is such a thing, he has introduced the public ear to a new sound. Some have went as far as naming him the next Dre of the Dirty South, and that's a hell of an expectation. Raised in the Southern region of Dallas, TX he sets the mood by "representing his hood ", and ghettos across America alike. The self-chosen CD cover alone sends a silent message to be exploited by his musical compositions. He first found that his writing skills could be of use as a senior in high school. Like the majority of graduating students in the "hood" he had goals of attending college however a single mother struggling with a four-son household could not finance quality education costs. He chose to enter two-city wide essay contests where he was selected among a few others as a winning recipient of both writing contests. A vast array of life experiences: growing up in the streets, a tad of college, 4 years in the U.S. Marines, management positions in corporate America, married divorced at the age of 24, and more gutta butta street life gives him a lot to compose upon. Working and hustling is nothing new to this business minded musical entrepreneur. His brother Ben, " Fa Sho " helped fine tune his street knowledge with the help of many hard knock life peers. From his many talents, skills, support from immediate family, and close friends NIZE ENTERTAINMENT brings you the

world of "NI" in musical form. Inspired by the likes of LL Cool J, Dr Dre, 2 Pac, Jay Z, 8 Ball MJG, UGK, Biggie Smalls, Scarface, Master P, KRS 1, Cash Money Records, Method Man, Kurt Franklin, Marvin Gaye, Curtis Mayfield, and Aretha Franklin. In his plans for the future he wants to make his mark as an Southern MC penetrating the brains of lyric fanatics, as well as exposing his spirit of a Thug. NIZE vows to simultaneously represent the streets of the nation (in either form) musically. His goal, to one day be respected amongst current rap world "sound scientists" keeping clubs and the streets moving to his hardcore and hip-hop street grooves. Anticipated releases music listeners won't mind waiting for.
