Osher's hypnotic didgeridoo, accompanied by flute, cello, angelic vocals, and percussion, takes the listener into a deep meditative trance state. Perfect for massage, meditation, breathwork, and inter-dimensional journeying... 10 MP3 Songs NEW AGE: Healing, NEW AGE: Meditation Details: Sound is received not only through the ears. It permeates the entire body. Sound waves travel through solid objects, including the physical body. As the body absorbs sound, the vibration recharges and effects the nervous system, brain waves, heartbeat, blood circulation, endocrine glands and respiration. The sonic vibration has a massaging effect reaching the remote, inaccessible places, vibrating into body cavities, vessels and fluids. The didgeridoo has been playing Osher for over 9 years and through her has shared its ancient healing and transformative powers with people all over the world. Osher shares her passion and love for the didgeridoo through music meditations, ceremonies, group and individual classes and personal sound/energy healing sessions. Her presence and charisma amplify the didj experience. Energy Tune-Up is a collection of live and studio recordings in which her didgeridoo is accompanied by cello, percussion, flute, and other instruments to create a deep meditative journey of sound.
