

Mp3 Trevor Frenzel - Simple Rev 2.3

[DOWNLOAD HERE](#)

An intense blend of powerful driving rock grooves and raw acoustic progressions. 17 MP3 Songs ROCK: Modern Rock, ROCK: Hard Rock Details: An intense blend of powerful driving rock grooves and raw acoustic progressions featuring dynamic vocals, smokin' guitar solos, cool sax riffs, and funk inspired bass lines. If you enjoy a variety of rock styles, you'll love the diversity of this 17 track CD!

(TRANSLATION: Don't just listen to the first track...they don't all sound like 'Honey'.) "One of the greatest multi-instrumentalists of our era!" Jon Flanagan - Radio and Retail Promotions The 'simple' story rev 0.1 It was the summer of 1998 and my heavy progressive rock band [Breaking Doubt] got burned out. I had been getting into more acoustic stuff at the time and already had some newer, less heavy tunes recorded, so I decided to write a few more songs and throw together a solo CD. Many of the tracks on the CD are one night writing/recording sessions originally meant to be scratch tracks that I ended up using as they were to preserve their original vibe. Others are more polished and produced. Some are somewhere in between. All in all, simple is simply a collection of whatever happened to happen at the time. After a second round of mastering, 'simple' became 'simple rev 1' which was released on CD in the summer of 1999. As time flew by, the year 2003 came around. It was decided that not enough of the world got a chance to hear 'simple rev 1', so it needed to be re-released. Threw on a couple of tunes that were recorded shortly after the release of 'rev 1', updated the CD artwork, and after 4 rounds of mastering, 'simple rev 2' became 'simple rev 2.3' and that's what you've got here. Be on the lookout for 'simple rev 3.x' sometime in the future, or not... Check out TrevorFrenzelfor more info!
