

Notions Of Positivity And The Geometry Of Polynomials

[DOWNLOAD HERE](#)

The book consists of solicited articles from a select group of mathematicians and physicists working at the interface between positivity and the geometry, combinatorics or analysis of polynomials of one or several variables. It is dedicated to the memory of Julius Borcea (1968-2009), a distinguished mathematician, Professor at the University of Stockholm. With his extremely original contributions and broad vision, his impact on the topics of the planned volume cannot be underestimated. All contributors knew or have exchanged ideas with Dr. Borcea, and their articles reflect, at least partially, his heritage.

EAN/ISBN : 9783034801423 Publisher(s): Springer, Berlin, Springer, Basel Discussed keywords:

Polynom Format: ePub/PDF Author(s): Brndn, Petter - Passare, Mikael - Putinar, Mihai
