

Beginner's Guide To Php And Mysql - Video Course With Mrr+bonuses

[DOWNLOAD HERE](#)

Comes with FULL Master Resell Rights, and two UNANNOUNCED BONUSES! Gone are the days of plain-Jane websites with static HTML pages. Internet success is built upon a foundation of dynamically-generated content. In fact, websites are so dynamic these days; they can practically change within seconds of viewing a Web page. When you learn PHP, you enter this dynamic world. My 17-step beginner PHP tutorial series helps you do just that! Here is what is covered in my beginner PHP video tutorials: 1. Installing PHP on your home computer: Sometimes the easiest parts of programming can be overwhelming for a newbie. Installing all the development tools needed to learn PHP is one of them. I break it all down for you step-by-step so you'll be up and running in no time. 2. PHP syntax: The word "syntax" isn't a word you use every day. Although it won't exactly get you brownie points for using it at your next business dinner, it will definitely help you in the PHP world. Syntax refers to the rules necessary

to put all the pieces of PHP code together. Just as the English language has rules for putting sentences, paragraphs, and entire works together, so does PHP. I'll teach you how to make your PHP masterpiece work. 3. PHP variables: Variables are where you store values for use in your PHP programs. When you learn PHP, it is essential to master this. This is exactly how everything that your users type in an online form gets into your databases. 4. PHP string: No, PHP strings aren't something you tie around your finger to remember something. But I'll teach you what they are for in beginner PHP video series. 5. PHP while loops: People may get tired of doing repetitive procedures, but computers never do. That's what they're there for. When you learn PHP, you can put your computer to work performing processes you don't want to do yourself. AND MUCH MUCH MORE! This product comes with MASTER RESELL RIGHTS! To make the deal even sweeter for you, we are even including two announced bonuses with it! Only those who purchase this product from us would be able to get the bonuses at NO cost! So what are you waiting for? Order today. 30-day money back guarantee! In case you are not 100 percent satisfied with your purchase, simply contact us within 30 days of your purchase and we will refund every penny! No questions asked!
