

Distant Calm Brook Trickling (sound Effect Sfx)

[DOWNLOAD HERE](#)

This 30" file is a stereo sound effect of a calm brook trickling over a cascade of small stones. Recorded from a small distance up, it captures a smooth and soothing stream. All files on sale by Sevenleaf SFX have been recorded by professionals and are available for you to download as 16 bit 48kHz stereo wav files. Also see our other range of water recordings at different perspectives and different streams and rivers. Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
