ROCK: Progressive Rock, ROCK: Roots Rock Details: The band started as a three piece acoustic act playing our original music in The Bronx, and Massachussets. John Paul joined as Black Diamond's bassist and the band performed in New York City's Greenwich Village clubs in 1997. In 1998 drummer Kevin joined the band. Now playing in the Westchester, NYC and Connecticut areas, we have expanded our repertoire to include some classic rock and blues tunes as well as our own new music and tracks from the CDs.
