ABSOLUTE IDIOCY. Chickens singing church hymns? Who thought that up? Whoever it was that made these poor creatures sing Praise to the Lord has some serious praying to do himself. (Editors' note: No chickens were harmed in the making of this album.) 12 MP3 Songs COUNTRY: Modern Country, POP: Quirky Details: Born-Again Chickens PRAISE 'N EGGS "Never try to teach a chicken to sing" they say, "it wastes your time and annoys the chicken." Of course, that depends on the chicken. The Born-Again Chickens weren't the least bit annoyed by learning to sing; in fact, they use their singing to annoy others. You rarely hear chickens singing in 12-part harmony, mostly because it's so difficult to find 12 chickens who can read music. But the Born-Again Chickens consider it part of their God-given calling to make music and sing songs of praise. They're not concerned whether anyone praises their singing. All they want in return is a smile and some chicken feed.
