unlike anyone you've ever heard before you've 10 MP3 Songs HIP HOP/RAP: Hip Hop, URBAN/R&B:

R&B Rap mix Details: DB/NEB was founded in 2003, by Tella Walton (Anniston, AL) and Kenneth Howell (Bronx, NYC). Later on in the label venture, fellow founder of the original Marx Men, artist and businessman/ artist/ producer. Kevin Valentin (Bronx), joined our record label ventures with new ideas to expand record sells with our label. Valentins aggressive resume, longevity, and experience was all a label needed for that extra push into the record label hall of fame, via record sells world wide. Kenneth Howell, businessman, and avid chess player, knows what making Power moves is all about! Howells dedication to take the record labels to its regal, thru decisions and planning would take strategic marketing planning. Growing up in the Bronx, NYC, I used to listen to some of our local talents around the neighborhood. A former street performer and Dj, with his own mix tape productions, spent a great deal of time marketing a successful business and his artistry as a performer, producer, Dj and lyricist, had a vision when he realized that he a talent for discovering and marketing new talent and would premier that artist on his mix tapes. The gnat for discovering new talents, who can commercially sell is vital. Creating NEB productions enable him to Create a new style of business called The G-Business style, moreover becoming very popular in the North East Bronx. The sound became more popular when a long time friend and label mate artist/ producer, Troy Martin, desired to join and bring his style to the label. Howell describe the G-Business" style as a character that most, if not all, people possess. For, everybody has a certain mentality called a G. A G, is a gangsta mentality, an aura about oneself, meaning that they are not taking any shorts in any line of work, business, or success. Everything is handled with precision and thought. Nevertheless, we applied this mentality to making music and lyrics. In business we are not taking any shorts and we are playing for keeps. Upon reaching out side his geologies, Howell came across one of

the most talented and independently established individuals by the name of Tella Walton, founder of Dirty Beatz and Dirty Born apparel. Howell recognized certain professionalism, business persona, and recognized Tella's marketing ability to sell music. Nevertheless, Tella, a multi-talented artist, possesses something that a record label needs to succeed, and that is production Tella Walton's G-Business Style, was the missing link to our jigsaw puzzle of record sales. The singer, rapper, producer slash businessman was all that this label needed to become a pinnacle of success in the music label hall of fame for record sells. DB/NEB also incorporated producer/artist Troy Martin and Darrin "D-Batts" Howell sounds to bring a variety of differentials to our resume. DB/NEB expects that every talent associated with us has to have that chemistry for desiring to be the best in contributing to record sales.
