

Mp3 Light - Music For Feelings

[DOWNLOAD HERE](#)

Ambient music from Bulgaria with a modern twist. 15 MP3 Songs NEW AGE: Ambient, EASY LISTENING: Mood Music Details: My name is Svetoslav Bozhidarov Slavchev. Light is my artist name. I seriously began to make music in the year 2000 and had already participated in several different projects and I will continue my work with music for as long as I can breathe! The first serious project was: "Jazzizm" in the year 2001, this was a really good project for me, jazz hip-hop style with many deep beats, basses, jazz samples and scratches. It was a project with my friend CDK, we worked together and after the Jazzizm project, we started working with vocalist Taissia and the legendary funk drummer Neftaly Santiago. We then produced our second project: "Balkanski Dushi" but two years later i had to go into the Army for six months, plus my friend CDK also had to leave Bulgaria to study. A year later, Taissia also left Bulgaria, so i then started working with my friend Jazzy, we produced an excellent jazz-hip-hop project named "Light Jazzy". I then continued to work alone, making my first independent project "Music For Feelings". I love this project and had been planning this album for a very long time including the melodies for it. I hope that everyone who listens to my music will find a better place within themselves.
