high energy rock from southern california with post hardcore influences. 10 MP3 Songs ROCK: Emo, ROCK: Modern Rock Details: Long Walk Home (LWH) is the story of four less than advantageous people on a journey to the place that we as humans long for...a place where you can feel at ease...a place where the people around you find comfort and a sense of belonging...to be part of something bigger than just you. Steven, Dathan, and Rustin have been part of this for many years, unable to take it outside of themselves. A voice to add words to their collective reasoning was something that seemed to be out of their reach. Stephen eventually found his way and LWH got off the couch. With their synergy now intact LWH was able to bring an innovative approach to aural illustration not known to exist. Stemming from the High Desert LWH has played for enthusiastic crowds around Southern California and their music has stimulated the lives of many others through means of digital media. Through their website the band is able to disperse ideas and interact with fans around the world. To experience LWH live or by any other means is to know that these characters know something about the world and want to share it with others. Join the journey and have someone to walk home with.
