Daring reworkings of Swedish singer/songwriter Eva Dahlgrens songs -- a mix of avant garde pop, majestic choral works and just plain weird sound design. You might not get the Swedish lyrics, but you will feel the mood -- it's intense. 7 MP3 Songs CLASSICAL: Contemporary, SPOKEN WORD: With Music Details: From the strong impact of Georgian male choir sounds, to a woman's delicate whisper in a city soundscape, this EP is a thunderous sonic adventure and a tribute to the possibilities of the human voice. The success of the stage shows and theatrical concerts of Swedish chamber choir MOLNDALS KAMMARKOR has translated well into this condensed recording, based on their reworkings of famous Swedish singer/songwriter/rock queen Eva Dahlgren. The rich voices, conducted by Jan Ivar Blixt, blends with percussion, strings, clarion calls and ambient sound effects - all recorded in true high fidelity and presented in Dolby Surround. The title "Vild i min mun" comes from one of Eva Dahlgren's lyrics, where she kisses her lover "wild in her mouth".
