classical guitar with a modern approach 7 MP3 Songs CLASSICAL: Traditional, CLASSICAL: Contemporary Details: Alex Masi's follows up the stunning "In the Name of Bach", his most appreciated work to date, with In The Name Of Mozart. Forget enjoying Mozart's pieces only on violin or keyboard, this CD is all guitar. This time Alex has taken on the challenge of performing the music of Wolfgang Amadeus Mozart on a Manne Semiacustica Guitar and a Farnell electric bass. On the Piano Concerto (track 4), Masi is joined by the Stuttgart Symphony Orchestra (conducted by Emil Kahn). Overall, Masi has selected upbeat compositions which will be familiar to music fans who have a working knowledge of Mozart's output. The result: a stunning, must-have guitar album unlike anything else out there. No drums or percussion -- In The Name Of Mozart is Masi's all guitar tribute to these masterworks. Instrumental Guitar (Acoustic/Classical), total running time, 44:09
