

Mp3 Billy Thompson - Music For All Centuries

[DOWNLOAD HERE](#)

An authentic blend of happy, pretty melodies laced with acid-tongued yet often humorous lyrics. 10 MP3 Songs POP: Beatles-pop, POP: Quirky Details: I think my overall songwriting ability is my greatest strength. Some people like my voice. Some even like the way I play guitar, even though I seldom play anything but rhythm. Still others like my lyrics and some like my feel for melody. But it's my opinion that I'm equally strong melodically and lyrically. As many songwriters that have come and gone, I still think that's a rare combination. I attempt to write up to the standards of Lennon-McCartney, Difford and Tilbrook of Squeeze and Neil Finn of Crowded House fame. If I manage to get within shouting distance of those masters, I may have written some of the best music ever.
