Beautiful, thoughtful instrumental guitar, a peaceful soundtrack for your day. 12 MP3 Songs EASY LISTENING: Background Music, KIDS/FAMILY: Lullabies Details: "Music Within" was originally designed a childrens sleep album. I would play each night for our restless child and he would gently fall asleep. After I finished the recording we realized that this soothing effect was not exclusive to children. The album is designed to be used to relax, unwind, pray or just be a soundtrack to your day. I hope you will enjoy. Im constantly amazed at the beautiful tone of the acoustic guitar. To this extent these tracks were recorded with minimal effects and digital clean up. The sounds of fingers on strings, breathing, and tapping are important components of the original acoustic performance. I hope these melodies have a calming influence on you and your world. From The Liner notes "The passion for music is born in people whom God blesses with the ability to hear music within and then create it on an instrument. I am married to such a creature. This is a man who cannot go to work before he has picked up a guitar. He cannot go to bed without picking up a guitar. He cannot walk down the hall without playing a few more melodies before lifes chores call him back to things that are clearly second in his life. This talent surfaces early in those chosen few and manifests itself with countless treasured guitars and melodies that need to be shared. And so from countless mornings, evenings, and moments in the hall, these beautiful songs are yours to hear. Enjoy" --Sally Warren
