Surprising, refreshing songs for children and adults. Glastonbury favourite and National Theatre regular with cult following. 9 MP3 Songs KIDS/FAMILY: Kid Friendly, KIDS/FAMILY: General Children's Music Details: Herbie Treehead is a very talented, strange little man who has done a lot of unusual things. One of the greatest things he's managed to do was to produce in an album of original music for kids and adults. The album is made up of songs Herbie found in his head and assembled to accompany his theatre production 'Cherub's Garden'. This was a hit at the Edinburgh Fringe Festival two years running and transferred to the Royal National Theatre, London. The album was put together in 1998, with the assistance of Rob Lee. Ever since then, Herbie has been gathering an underground following through appearances at the Glastonbury Festival and other significant world events. A batch of CDs were made and distributed several years ago. Bootlegs of 'sleepy songs and not very sleepy songs' have been circling the world ever since. After working with him on an unusual project involving dinosaurs, I convinced Herbie to reissue the album and he has. quick, tell everyone!!
