A spatial, ambient, space-rock project from, NY. 8 MP3 Songs EASY LISTENING: Mood Music, ROCK: Psychedelic Details: Description: "Spatial, Ambient, Space-Rock ...a truly unusual and experimental sound project. These 8 subtle and abstract sound sculptures are well-thought out on bass, guitar, sounds effects -- seasoned with eerie voices and programmed percussion. A perfect nocturnal spin for those adventurous fans into Eno, Felt, Velvet Underground, Mogwai, Aphex Twin, etc." Group Members: Robert J. Kaminek Jr. ICECAKE albums: "...an ambient experience" (June/2002, Supple Records, Inc.) "...an ambient extraction" (Dec/2003, Supple Records, Inc.) "Restoration" (coming soon in 2005, Supple Records, Inc.) Review: "ICECAKE is at it again. I was lucky enough to get a pre-release copy of the new CD '...an ambient extraction', and loved it! With use of spoken word type vocals on a few of the tracks and the more guitar driven core of each song, this CD is even more accessible than the first CD '...an ambient experience'. Emotion drips off such songs as 'Version', 'Mellows', and 'Pour Vous Deux', while a distant eeriness transports you through space, time, and the fascinating and often terrifying world of the subconscious on tracks like 'Pierce Point Stop, South Side Line' and 'My Normal State'. I was a big fan of ICECAKE's first CD, but I love this sophomore release even more. I highly suggest you add '...an ambient extraction' to your collection.
