Country, Christian without the twang. 12 MP3 Songs GOSPEL: Country Gospel, COUNTRY: Country Pop

Details: I started playing music at an early age of 10, that doesn't mean i'm 11. My first guitar was a 1962

Fender Jaguar which my mom bought for me to see if i could make any resemblance of music with it. At first it was into my room with the door shut or out in the hallway so i wouldn't peel the paint off the wall's.

As i learned the sound's i made resembled music, not the kind they wanted to hear as rock-n-roll was

going strong back then with the Beatle's, Rolling Stone's and etc. My first group in grade school was

called The Telstars we played V.F.W's and school dance's. We started to get payed which we didn't

expect that. As we grew up we entered battle of the bands contests and won everyone of them we

entered. We opened for many great rock groups that you now here on oldie's rock stations. They were

great time's and helped mold me into what i play today, country and christian music. I have been number

1 several time's on the my space chartys and continue to grow day by day with over i million and a half

plays in the last 10 month's. I didn't choose my destiny in what i write and play in music it chose me and i

feel i'm right where i'm supposed to be. I hope you all get something out of my music and enjoy. God

bless. t
