Data-based Decision Making In Education

[DOWNLOAD HERE](#)

In a context where schools are held more and more accountable for the education they provide, data-based decision making has become increasingly important.This book brings together scholars from several countries to examine data-based decision making. Data-based decision making in this book refers to making decisions based on a broad range of evidence, such as scores on students assessments, classroom observations etc.This booksupports policy-makers, people working with schools, researchers and school leaders and teachers in the use of data, by bringing together the current research conducted on data use across multiple countries into a single volume. Some of these studies are best practice studies, where effective data use has led to improvements in student learning. Others provide insight into challenges in both policy and practice environments. Each of them draws on research and literature in the field. EAN/ISBN : 9789400748163 Publisher(s): Springer, Berlin, Springer Netherlands Discussed keywords: Pdagogische Fhrung Format: ePub/PDF Author(s): Schildkamp, Kim - Lai, Mei Kuin - Earl, Lorna
