I have been getting airplay on the radio since 1988. I have been played in the U.S, Canada, Poland, Japan, and the Uk. In the studio I sing, and play mostly every instrument except the bass and guitar. I have recorded alot of songs, and am looking for a record deal or a band to perform my songs and I would get royalties. My biggest accomplishment was performing on the Jimmy Kimmel show (ABC) Latenight and people can see this video along with others if they type in You Tube(Johnny Azer)or can see them on my profile which is myspace.com/johnnyazer I would love to sell alot of CD;s and find a backup band to perform my songs out live in big venues. I was well recieved by Jimmy Kimmel. I would like to sell alot of my songs to major label acts.
