Classical, contemporary 12 MP3 Songs CLASSICAL: Contemporary, WORLD: World Fusion Details: As usual June Simon is full of surprises and never lets us down. "Give Me Your Hand" as the title song says is exactly that - June taking you on a beautiful journey of love and life with music that stirs your heart and never lets you go ending with the most beautiful surprise of all - a song everyone will understand and never forget. The award winning combination of Emile Simon, who composed all the music and lyrics together with Pierre Grill, who arranged all the songs and is the key player and director of L'Escargot, gives you music that fulfills all your dreams and more. Give Me Your Hand is the best title for this CD as June takes her listeners on a beautiful journey of life. Songs like "Pretty Words" provide the humor that everyone has experienced - though not always laughing at the time. Je T'aime is a truly beautiful love song with the French words by the 19th century poet Francis St. Leger and capture the absolute magic of real love. While recording in Hawaii, June and Emile met a wonderful gentleman, Gunther Janssen, who was one of the chief executives of Mercedes Benz for many years. He was alone on this trip and so Emile decided to compose a song for he and his wife called "Costa del Sol" where they have a home - so this song is dedicated to Gunther and Gudrun. The cities commemorated in this CD are for all of those people who love their cities and want to share this love with everyone.
