Playful children's music with an affable attitude and a folky, harmonic sound that will entertain all ages. 11

MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: General Children's Music Details: Melissa

Szilagyi started teaching pre-school in NYC and after two years, she began writing children's songs.

Taking a page from the Reggio-Emilia teaching philosophy, she wrote and sang songs about things that the children were interested in. Her songs make kids laugh, take them to magical places, and encourage

them to day dream about their future. Here We Go is a collaboration from Melissa and her very talented

friend and producer, Beau Elliott. Each song has its own style with acoustic sounds and a sophisticated

beat. You will forget that you are listening to children's music while you and your kids are singing and

dancing along. Melissa now resides in Los Angeles where you can catch her shows at local bookstores

and malls. She continues to be inspired by her students while teaching music at various preschools and

private playgroups.
