A personal feminine universe illuminated with a pure and delicate voice. 13 MP3 Songs FOLK: Folk Pop, ROCK: Folk Rock Details: Sophie Galet appeared with a beautiful debut album Cyclus, that officially came out in Belgium in April 2006. From acoustic pop ballads to intimate folk songs, this first album, rich in seventies sounds (rhodes, wurlitzer) gave her this opportunity to express herself as both a songwriter and a delicate vocalist, as she signed 4 tracks and co-wrote 5 of the 13 composing this first album with the well-known Belgian artist Benjamin Schoos (Miami Monster Miami), an ideal artistic producer. At the birth of this album, a year off in London inspired Sophie her first songs for Cyclus. With the precious help of Benjamin Schoos, they selected some of them and made new ones, choosing the musical colours appropriated to her pure and melancholic voice.. A very sweet and appeasing international record Between London (1993) and Seraing (Belgium 2005), Sophie invested herself in music, singing backvocals on the three last albums of Miami Monster Miami (Hey Tank !; Forgotten ladies, Soleil Noir) and followed him on stage for more than 40 concerts all over their country (dour festival, Nuits du Botanique, Francofolies de Spa,). Now, she realised her own project she's still sharing her creative energy in playing drums and lending her sweet voice to 'Freaksville record', a Belgian label producing its first artists : Jacques Duvall, Juan d'Oultremont and Miami Monster Miami ... Her principal sources of inspiration are nature, human beings and the personal link she makes between both.
