The Teenie Tones are a New Dimension in Children's Music and Entertainment. "Meet the Teenie Tones," an all original interactive music CD, uses a connective learning approach that links educational content and musical experiences children know and love. 10 MP3 Songs in this album (24:42) ! Related styles: KIDS/FAMILY: Children's Pop, KIDS/FAMILY: Sing-Along/Interactive Details: The Teenie Tones songs and dances on the CD empower the children to appreciate diverse styles of music and encourage learning. The goal of the Teenie Tones is to bring music back to children. A unique interactive piano game program was developed for the Teenie Tones web site at teenietones.com, that gives children an opportunity to learn the notes as they compose their own original songs. Music composer, Marquis Dair and Teenie Tones creator, Barbara Valentine joined forces to write and compose music that nurture childrens imaginations and inspire them at an early age to appreciate and cultivate a life-long love of music.
