

Mp3 Tom Roble - Folk: Folk Pop

[DOWNLOAD HERE](#)

Folk, pop, easy listening. 12 MP3 Songs FOLK: Folk Pop, EASY LISTENING: Crooners/Vocals Details: I'm performing steady in the Coffee house and bar scene in Fargo, North Dakota and Moorhead, Minnesota, which is just across the Red River. I'm doing solo and acoustic stuff. Voice and acoustic guitar. This is the second year in a row that I have won an award from ASCAP for most play dates in a year and working in a field that doesn't compensate with royalties, since most all my gigs are in coffee houses, bars and area's that cater to my kind of music. The other venues that are open to me are people that are disabled and are sometime called "shut-in" types of people. They too love music and love being entertained because of their circumstances. Thanks for listening and take care. It's very important that I tell you the Ed Parady from Grateful Ed Productions, is responsible for producing all the background instruments and editing the music. And thankyou to Aaron Paintner who did the original recording of just me and my guitar at Noah's Coffee house. So thanks to Ed and Aaron for doing such a good job in helping me complete this project.
