Barbeque music for those who fry their own brains (with introspection). 15 MP3 Songs POP: Beatles-pop, POP: British Pop The Children of the Milkman Songs Details: A milkman who spawned 500 children that all met one day and defined Los Angeles ???? Now that sounds like a party. If you ever thought your parents were not really your parents this might be the memorialise for you. From its Sgt. Pepper-ish opening anthem, to its romantic rock-a-billy and hard rock excursions. The Children of the Milkman, is with child thought agitating entertainment. Every song has a story, and every story is about 3 layers deep and colored with lots of humor and sentiment. Born out of the death and disintegration of his own family Children marks a truly great lyricist who has definitely hit his stride. "I've got every disease known to man Waiting patiently inside me To surprise me, when I least expect it." Abraham Cloud's last excursion: 1998's "Voyage To Afghanistan" I seemed to predict the next American war. God knows what this one might predict.
