Sassy Electro Guitar Pop 5 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover
Details: Electracult were formed in January 2005 and are Crissie Cult (a.k.a. Crissie B) and Milectra. Both band members met following recent splits with their respective bands/projects to form the distinctive riot electro-pop sound of Electracult. Crissie Cults dark and dangerous past includes a co-write with William Orbit on the last All Saints album and a recent dance release in the states. Singer, songwriter Milectra well, quite frankly was found holding up the bar at the Garage whilst explaining to her drummer of rock band Stoned that he was taking things too literally. Electracult girls, guitars and sonic attitude!
