Perhaps this is a classical suite with many new age and pop elements. The emotional spectrum of it ranges from funny and bright to dark and severe - Perhaps it's just a musical picture of brother horn's and my soul, thriving and breathing together... 10 MP3 Songs NEW AGE: New Age, POP: Folkly Pop Details: eloah-art is the musical project of Elmar C. Fuchs. It started 1993. Until now, 6 CDs have been recorded. The CD "mondstein" was created from many hours of jam-sessions of Elmar C. fuchs and Jrg Horner. The unique voice of Horner, very classical and innocent, but very detailed, fine, combined with the raw pianoplay of Fuchs a completely new style. From soul to classic, even a little bit of spiritual atmosphere, the emotional spectrum of this almost eerie work ranges from funny and bright to dark and weird whereas it also reveals total musical freedom. The LO-FI recording of voice and piano (not of the orchestra) makes this CD to a unique masterpiece for the bon vivant. This CD is dedicated to my late friend Jrg Horner. In this album - and in my heart - he will live forever.
