Holding hands, drinkin' your milk, making a pizza, ending the day on a sweet quiet note - Enzo and guests Ralph Carney and others will help you sing and dance the joy of it all. 16 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Kid Friendly Details: Intimate, rhythmic, and wonderfully played, Enzo Garcia's LMNO Music-Pink is a fun album that belongs in every home, classroom, and Toddler Time collection. Another classic from the west coast! --Warren Truitt, Head Childrens Librarian at The New York Public Library, writing for his blog, "Childrens Music that Rocks" Few genres at CD Baby face the daunting challenge of having to appeal to such a wide age range in their fans. With the Kids/Family section, these artists not only have to keep the young ones interested but they also have to keep the adults from running out the door for pain killers. That responsibility can be quite a task. However, Enzo Garcia has a memorable way of being "cute" and catchy without dropping all integrity and conviction. It's like he's honed the playful and goofy elements of adult music and tweaked them to fit perfectly within kids'music. There's definitely a hokey kind of feel to this album but in a way that will bring a smile to the face of any mom or dad. --CD Baby
