

# Mp3 George Finizio - Something That Is Deep Inside

[DOWNLOAD HERE](#)

an original masterpiece of timeless importance that is best viewed in the subdued lighting of a candlelit room and savored with the subtle ambiance of a fine wine. 13 MP3 Songs POP: Power Pop, ROCK: Classic Rock Details: High quality original music by George Finizio featuring John Jorgenson (tours with Elton John The Hellecasters), and Gary Frisbie. Music styles include pop, rock, adult contemporary, easy listening, country, blues, folk, and two Christmas songs! Please check out the demos. "George with fellow artists, Gary Frisbie and John Jorgenson , created an original masterpiece of timeless importance that is best viewed in the subdued lighting of a candlelit room and savored with the subtle ambiance of a fine wine. Something That Is Deep Inside seduces the mind with playful melody, harmonic heraldry, and articulate arrangements that these three magi wove to tantalize an audience eager for something more stimulating than the meat market music catering to a MTV mentality. This CD captures the essence of music by incorporating a calliope of musical style and a kaleidoscope of texture that ever changes with each listening" "Something That Is Deep Inside resonates from that place that many have visited, but few have truly seen. It is a musical adventure that provides safe passage only if one steps into the tracks and not over them. Its truest treasures exist deep within the craftsmanship of each of its thirteen songs where the path is less charted, the waters more turbulent, and the beauty is the most spectacular. Something That Is Deep Inside is not a carnival cruise. It is a caravan for those who dare journey into the core, that is the center of the soul and the creator of the conscious mind." = (above review by Kathryn Hoffman-Baley Promotional Director-Gypsymusic.) "I try to write music that people can emotionally relate to and identify with. The songs should be relevant as long as human emotions are relevant." - George Finizio
