Details: I have been singing and performing since I was five. Being born in Odessa Texas meant lots red dirt, but no oil well, bummer. Moving, at four to grow up in Bonham Texas meant lots of church choirs, plus acting, and writing. I sang in some country rock bands in college. Singing all around Texas. Lot's of fun. Ok..so far we have West Texas, and North Texas. Now, the big solo move to Colorado and the wild west experience. Love, a good looking cowboy, horses, kids, music, psychology, and heartbreak. YeHaa!

All of that inspired me to seriously start songwriting out there in the middle of nowhere in Colorado. So I wrote and sang and people liked it. People all over Colorado started asking for me and my music. That is what inspired me to keep writing and singing. I even sang the National Anthem for the Colorado Rockies and the Indie Races. That was really cool. Wanting to learn more about songwriting and the music industry led me to Nashville Tennesse. I got more than I bargined for with a lot of acting in film, songwriting, singing, limousines, and the school of hard knocks. Really hard knocks. Worth it. Yes. Full circle, only better. Austin, Texas. Home. (Subliminal message: Buy The Same Ride, Buy The Same Ride)

Thanks for taking the time to read about me. I really do appreciate it. Hope you enjoy my music and that it helps you have a better day. Janna .
