Rootsy folk-rock with a message. 10 MP3 Songs FOLK: Political, FOLK: Folk Pop Details: Albany, NY, based singer-songwriter Jeremy James writes rootsy folk rock songs with a message. His latest release, Grey Gardens, is an all-acoustic exploration of politics, spirituality, and sexuality. His lyrics have been described as poetic, rich with characters, and thought provoking. Born and raised in Arkansas, his songs are equal parts city and country. He combines elements of folk, rock, country, and pop to create a song that is just as likely to incite one to political action as it is to make one mourn a lost love. His music is a staple at local radio stations and on internet station RadioioAcoustic. A cool sounding guitar and honest vocals make Allegiance the perfect rebellion song. --GarageBand.com "Jeremy James name is a hallmark of songwriting talent. Picture a sedate Hammell on Trial fused with Elliot Smith. His lyrics are a callback to folks storytelling roots. In Allegiance, the opening track of Grey Gardens, James makes a political statement muted by the anecdote, In my hometown there is but one lonely courthouse and there are 26 churches that want to save my soul. James use of bare guitar rhythms further highlight the artists lyrical power. Love songs like Mr. Rochester leave the listener feeling privy to an inside joke when James poses, 'You could be my Mr. Rochester and I could be the crazy lady in your attic.' James is an old soul whose new release is more colorful than its name suggests. With a voice like Loudon Wainwrights and lyrics like Joni Mitchells, this one-time country boy is a welcome addition to the neighborhood. --CE Skidmore, Glens Falls PostStar
