From the drum-driven 14 MP3 Songs POP: Pop, WORLD: World Fusion Show all album songs: Reaching Out Songs Details: I believe that music is the bridge that brings us together. Music is the first place we start celebrating each other's cultures. When I integrate sounds from another culture, I feel like I am embracing it, declaring our oneness. As winner of Los Angeles Music Awards Singer/Songwriter of the Year, Larisa Stow is known for her thought-provoking, soul-searching lyrics and haunting melodies. Most recently, her passion to integrate the sounds of popular music, world-based rhythms and melodies with the ancient form of kirtan (devotional call and response music) has driven her to collaborate with Grammy award-winning producer and songwriter, Rick Hahn (Celine Dion). The magic of that union resulted in a compilation of engaging Kirtans that are a seamless blend of east meets west. Just prior to her work in the studio with Rick Hahn, Larisa produced an album of spiritual kirtans featuring top-selling author, Thomas Ashley Farrand (Healing Mantras). Her work with this ancient form of music that many have termed sacred music along with her continued desire to bring the worlds of popular and spiritual music together has made collaborating with Rick Hahn a compelling venture. As Bernard Bauer of Music Connection says, This is music that touches the heart. Larisa will move your emotions- not with a shove- but with a caress. Larisa brings that same magic of spirit to her live performances. Performing live is my favorite part of being an artist. I love connecting with a live audience and the exchange of energy that happens, the drama of it all. Larisa is warm and engaging, she has this amazing gift for making you feel like you're an old friend, even though she's never met you before. you want to dance at one moment or sit in your seat and cry in the next. She takes her audience on an emotional journey that they seem so glad to go on with her.
