

Mp3 Martin Látal - Life With Music

[DOWNLOAD HERE](#)

Contemporary, original classical music, with some elements of new age and electronic 13 MP3 Songs
CLASSICAL: Contemporary, ELECTRONIC: Experimental Details: Music brings us together... During the year 1997 I improvised and saved these ideas into the sequencer. Later I arranged all parts and the result is here for You. This is an experiment in Light Classical Style and I hope You enjoy it. I played fantastic acoustic sounds from the digital module E-MU Systems and these sounds brought the baroque, Mozartian and new motives used in this project to me. I believe this music will find the people who want to listen something unusual. Let me thank by means of this CD to all people who I have met in my life: to my mummy and daddy for keeping me in the lessons held by the piano teacher Olga Hjkov and for bringing me to life to Mariela for having me listen to Swan Lake and Albinonis Adagio to all teachers for showing me the way to my close friend Mr. Stanislav Vrbk for opening to me the world with beautiful organ sounds to Frici Fldes for his excellent fencing lessons to my wife Zdenka and lovely kids Petr, Jan , David and Maruka for bringing joy into my life to all friends of mine for their friendship. Thank You M.L.
