Details: In 2005, rising World&B star Miss Meghna made heads turn when she stepped into the music scene with her EP. The Bhangra B Remix of her first single In Control quickly became a crowd favorite, and as word spread about this hot new artist, Miss Meghna hit stages across the country on a U.S. college tour in 2006. Later that year, she released the video for In Control (Bhangra B Remix), which aired on MTV Desi and received thousands of views online. The popularity of her first single led to the release of In Control: The Maxi Single - with various remixes that attracted even more fans and earned her a place in DesiHits.coms Top 10 Artists of 2007. Following the success of her first two releases, Miss Meghna was back in the studio for most of 2007 to finish recording her debut album, My Little Tape Recorder. Named after a small gold recorder into which she sang all her melody and lyric ideas, the globally-inspired album quickly moved in a creative and exciting new direction. The unique sound of production team Music Without Borders combined with Miss Meghnas promising talent as a singer and songwriter resulted in a powerful debut album, set to be released in Fall/Winter 2008. Featuring several guest artists and producers, My Little Tape Recorder showcases Miss Meghnas impressive versatility with its catchy pop songs, introspective R&B tracks, and sultry club bangers.
